

COVID-19 Screening Register

Screening Protocol

Event Location:	
Event Date:	
Compliance Officer:	
Contact Number:	

Name	Contact Number	Temperature	Fever	Cough	Sore Throat	Difficulty Breathing	Redness of the eyes
NOTIFICATION:	If the individual experiences any of the following, the SAC is required to review the situation and where necessary, implement the Quarantine, Isolation and Disinfection Protocol.						

Persons are screened during the safety briefing. Their temperature is taken using a contact-free thermometer, they are asked if they have experienced any of the listed symptoms within the previous 24 hours. If the persons temperature is above 38°C, or if the person says yes to either of the questions, the person must be asked to leave. If the persons temperature is below 38°C and they answer no to all questions, the employee is allowed to enter the premises to work.

Should Screening not identify any of the above observable symptoms, access to the event will be allowed. Persons are required to report to your Compliance Officer, if you are suffering from any of the following additional symptoms;

- Body aches
- Loss of smell
- Loss of taste
- Nausea
- Vomiting
- Diarrhoea
- Fatigue
- Weakness
- Tiredness
